SHEERS & FILTER CLOTHS

LINEN MESH SHEER MOTTLED DRIFTWOOD

Linen Mesh Sheer is a heavy weight casement offering an equal distribution of yarn to open spacing resulting in a near 50% opacity. Perfect for casual or rustic applications this wonderful example of a heavy sheer works exceptionally well where both privacy is important. A soft comfortable hand and a coarse porosity make for a very cozy textile that when paired with sunlight offers a beautiful dappling of light and shadow play.

FABRIC DETAILS

A combination of oyster (weft) and flax (warp) yarns blend together to create a vertically dominant visual texture to this heavy casement textile. A perfect blend offering subtle natural toning and a softer coloring than the Flax version. Widely popular and a perfect choice for natural and warm interiors or where light filtering needs to be a warmer tone that is not too dark.
